

Equity Release

Tailored Solutions for Clients Aged 55 Years Plus

Equity Release allows clients to release some of the value in their home through either a one-off cash lump sum or an annual cash payment. The clients will not have to make a monthly payment, the loan and interest can either be repaid in full through the sale of the property or when the client passes away.

Due to the nature of the loan, we provide a very personal service. Our qualified adviser will meet with your clients in their home to discuss their needs and the wide range of solutions available to them. Equity release loans can be tailored to suit your client's individual requirements.

Referring clients to us is simple, our advisers only need you to provide a name and telephone number. From this point we will deal with your client directly, paying you an average fee of £1,200 on completion.

Common Uses
